

## August 2, 2023 e-permitting Release Notes

### System Wide

ID	Title	Description
<b>134062</b>	System Maintenance	Ability to add follow-up line items based on an answer-clicking 'add follow-up' link on the treeview should behave just as if the user clicked to add a New Control. The difference will be that the control will have a parent. Fix for the follow up line order and tree view display

### AQ

ID	Title	Description
<b>139134</b>	Fix for Copy To New Functionality and Facility Module	Fix for an issue identified in Production when a submitted or completed authorization is copied to a new draft, if the parent authorization indicated a new facility, the facility information should not be copied to the new draft authorization.

### Clean Water

ID	Title	Description
<b>136787</b>	BCW Individual NPDES- Updates to Public Notice Document	Small bug fixes to the Public Notice Document including line spacing, odd characters, and regional office information.
